LEARNING OBJECTIVE(s)

- Planning a mitral ViV procedure
- Step-by-step transeptal mitral V-i-V procedure
- Troubleshooting

PANEL

Giuseppe Tarantini (Padova) - **Francesco Saia** (Bologna) - **Sergio Berti** (Massa)

Discussants: **Caterina Gandolfo** (Palermo) - **Francesco Meucci** (Firenze)

Marco Barbierato (Mestre) - **Giulia Masiero** (GISE Young - Padova)

Case Presenter: **Antonio Giulio Bruno** (Bologna)

INTRODUCTION

Giuseppe Tarantini - Francesco Saia

PHASE 1

Case introduction

Antonio Giulio Bruno

Pre-procedural imaging for mitral ViV

Sergio Berti

Topic(s): Analysis of echo and CT Scan, evaluation of LVOT, complex cases

Panel discussion

Topic(s): Discussing about imaging, LVOT risk, LAMPOON, valve-in-ring, valve-in MAC

CT case analysis

Francesco Saia - CT case analysis

Topic(s): CT scan analysis of the case presented

Panel discussion

Topic(s): Panelists discuss focused on the case

PHASE 2

Clinical case: the mitral V-i-V procedure step by step

Antonio Giulio Bruno - Clinical case conclusion

Giuseppe Tarantini - Tips and Tricks to streamline the procedure

Topic(s): Show procedure step-by-step, troubleshooting

Panel discussion

All Panelists

Topic(s): Septal crossing and dilatation, valve alignment, double wire and other

CLOSING REMARKS

Giuseppe Tarantini - Francesco Saia
