## LEARNING OBJECTIVE(s)

- Approach to low-risk and younger patients with TAVI
- Step-by-step TAVI planning
- How to optimize TAVI procedure
- Planning of TAV-in-TAV

## PANEL

**Giuseppe Tarantini** (Padova) - **Francesco Saia** (Bologna) - **Giovanni Esposito** (Napoli)

Discussants: **Antonio Bartorelli** (Milano) - **Massimo Fineschi** (Siena) -

**Emilio Di Lorenzo** (Avellino) - **Fabio Magliulo** (GISE Young - Napoli)

Case Presenter: **Luca Nai Fovino** (Padova)

## INTRODUCTION

**Giuseppe Tarantini** - **Francesco Saia**

## PHASE 1

Case introduction - **Luca Nai Fovino**

Panel discussion (Heart Team) - whatever aortic valve replacement (SAVR or TAVI) takes?

Topic(s): low risk, approach/prosthesis choice, coronary access, reDO TAVR

Don't put off until tomorrow what you can do today

**Giuseppe Tarantini**

## PHASE 2

Analysis of CT scan of the case presented

**Francesco Saia**

Topic(s): analysis of aortic root and access

Procedural planning

All panelists

Topic(s): the perfect procedure: vascular access and closure, valve implantation, adoption of safety plan, PM, valve orientation

Case conclusion

**Luca Nai Fovino**

Topic(s): show the procedure step-by-step

Panel discussion

Topic(s): post-procedural care, early discharge

## CLOSING REMARKS

**Giuseppe Tarantini** - **Francesco Saia**
